

## **‘Fresh new look, and a new management team for NewNet’**

NewNet are pleased to start the new year with a fresh new look and a brand new management team. Since the Timico acquisition in 2010 the investors have been planning how to take the company forward and part of that decision has been to bring in an entrepreneurial management team headed by Managing Director, Darren Hilton.

“NewNet has built a first class network and customer services team and Tim Radford, Founder and Chairman of Timico has asked me to establish NewNet as ‘The ISP of choice in the South of the UK’. I intend to achieve this by delivering a high quality British product backed by excellent customer support based in the UK”

Darren is joined by Pierre Lams, Sales & Marketing Director jointly with 40 years experience in the Technology Sector and also Victoria Bradley previously of BT Wholesale to head up a new wholesale proposition.
