## **NewNet achieves the highest nominations for ISPA awards**

For the second year running NewNet has been short-listed for FOUR ISPA awards - the highest number of nominations for an Internet Service Provider. Excelling over many major players including BT, O2 and Virgin; the Fareham-based ISP NewNet has received four finalist places for Best Business Fixed Broadband, Best Consumer Fixed Broadband, Best Shared Hosting, and Best Dedicated Hosting.

The prestigious ISPA awards, run by the Internet Service Providers Association, celebrates the best of the internet industry and awards Internet Service Providers for achievements including class of service, innovation and best practice.

Continuing to uphold excellence within the industry, NewNet have strongly invested in increasing their LLU exchange presence within the Hampshire, Surrey and Berkshire regions; enabling NewNet to provide bespoke broadband and Network solutions at uniquely competitive rates for both business and consumer clients. In addition, NewNet's vast experience allows each client to receive individual customer service and support that is completely tailored to suit their needs.

Calum Malcolm, Operations Director, NewNet plc commented "We are delighted to have been short-listed again for four ISPA awards, a fantastic achievement when we are competing against so many other major ISP's. The nominations demonstrate NewNet's ongoing commitment to Innovation and our belief in exceptional customer service"

The awards ceremony takes place at the Grosvenor Marriott Hotel, London on 8th July 2010.
